

Internship Program

Industry: Entertainment/Audio

Location: Austin Position: Audio/ Studio Engineering Internship

Salary: This is an internship. Will be on payroll for mileage reimbursement.

ABOUT US: ponysound is a post-production audio recording facility in Austin. We are in the position to be selective about the projects we take and will only put our attention and resources towards those that we believe in. We work in a low-key environment but maintain professional.

DUTIES INCLUDE: Majority client services, running session discs to clients, stocking fridge, etc.

OPPORTUNITIES INCLUDE: Learning how studios work (client services); opportunity to sit in on some sessions to see how studio sessions are run at ponysound; potential to leave internship with a demo reel.

WHAT WE ARE LOOKING FOR: Talented, hard-working, dedicated, loyal, focused, creative, highly motivated, and reliable individual full of potential that will truly make the most of this experience. Come in with a professional attitude and a strong desire to learn. This is a very demanding yet highly rewarding, part-time internship, so please only those serious about starting or furthering a career in the audio engineering field should apply.

REQUIREMENTS: Graduate or student from an audio engineering degree program (8 month minimum), associate or bachelor degree preferred. Technical aptitude, good people skills, problem solver, career focused, and a reliable car is a must.

SCHEDULE: Flexible; 11am-3pm preferred.

LENGTH: Varies

TO APPLY: E-mail your resume to the following address; include a cover letter explaining why you want this position.
