We provide generic scripts linked here. Please pick six for you to rewrite as needed and rehearse. We will then schedule a time convenient to you and around are regular scheduled sessions and have you in for half hour session to perform multiple takes of the reads. We will then spend the next several days unsupervised and in between sessions adding sound effects and music as needed. An mp3 will then be uploaded to our server for your approval. The package includes two rounds of unsupervised revisions and re-uploads to approve. Once complete we can send you references of local and national talent and voice over agencies to send you new demo to.

Good Luck!,
